

# Quality Policy

---

**APRIL 2016**

**VERSION II OF APRIL 2018**

Xarxa FP's mission is to improve quality of Vocational Education and Training (VET) across Europe by developing common mobility strategies and projects among cities aimed at VET students and professionals. The Association has developed its expertise since its establishment in 1999 and its aim is to achieve a high standard of service to its members' students and teachers.

Xarxa FP provides work-based learning experiences across Europe for both VET students and professionals.

It is the policy of Xarxa FP to provide a high level service and quality in the administrative management of our students' and teachers' mobility actions to become a reference organisation within the area of European mobility.

A Quality Manual has been prepared based on the requirements of ISO 9001:2015 containing the procedures to achieve this Policy and defining our quality management system. This system shall be subject to a process of continual improvement through our quality management review system.

Quality objectives have been set at the Strategic Plan 2016-2020 and will be subject to review at the annual General Assembly and the Executive Committee meetings of the Association as well as the overall quality policy for continuing suitability.
